SUBJECT INDEX, VOLUME 30

Abortion, saline-induced, progesterone during, 774
Acromegaly, cortisol stimulation of GH production in, 538
  disappearance rate of GH in, 386
  insulin secretion in, 288
  progestins in treatment of active, 646
ACTH, comparison of human and porcine, 190
  "cure" of ectopic syndrome of secondary to adenocarcinoma of the lung, 590
  elevation of, in Addison's disease, 573
  estrogen effect on metyrapone metabolism and release of, 259
  extra-adrenal action of, 778
  in premature neonate, 96
Addison's disease, Cushing's disease and, 573
Adenohypophysis, fluorescence of LH cell of, 181
Adrenal cortex hormones, protein-binding radioassay of, in hypoadrenal states, 443
Adrenal gland(s), 18-hydroxylation by tissue of human, 402
  hyperfunction of, due to hydroxysteroid dehydrogenase deficiency, 719
  hypofunction, role of hypervolemia in impaired water diuresis, 252
Adrenal gland neoplasm, corticosterone production by, 457
Adrenal medulla, response to venography, 138
Adrenal-pituitary axis in heroin addicts, 24
Adrenocortical function, measurement of, in children and adults, 185
Adrenogenital syndrome, XO/XX/XXX mosaicism in, 666
Aldosterone, radioimmunoassay for plasma, 682
  secretion rates of precursors of, in congenital adrenal hyperplasia, 361
Aminolevulinic acid synthetase, induction by oral contraceptives, 330
AMP, cyclic, factors influencing urinary excretion of, 316
Anencephalus, formation of hydroxyestriol in, 763
Anorchia, testosterone effect on GH in, 615
Antibodies, to polypeptide hormones, complex effects of, 565

Bile duct obstruction, estradiol metabolism in extrahepatic, 161
Bone, hydroxyproline as urinary marker of collagen synthesis of, 282
Breast neoplasms, circulating phytosterols in women with, 174

Calcium, in renal osteodystrophy, 15
Carbohydrates, glucagon effects on metabolism of, in thyroid disease, 372
Carcinoma, breast, estrogen binding by, 639
Catecholamine, kinetics of conversion, 580
  metabolism of, in neuroblastoma, 580
Cerebrospinal fluid, corticosteroid levels in blood and, 208
Chlormadinone, metabolic effects of, compared with conventional contraceptive steroids, 785
Chlorpropamide, in diabetes insipidus, 215
  effect of, on urinary excretion of water in diabetes insipidus, 528
    on water flow in toad bladder, 528
  mechanism of action of, in diabetes insipidus, 488
Cholesterol, conversion to placental progesterone, 624
Choriocarcinoma, Leydig cell function in men with, 504
  metastatic, associated with hyperthyroidism, 423
Circadian rhythm of cortisol, in Cushing's syndrome, 686
  in normal man, 411
Clomiphene in normal human spermatogenesis, 196
Cold, effect on TSH, 430
  GH secretion during and after exposure to, 393
Collagen, synthesis of bone, urinary marker of, 282
Contraceptives, induction of ALA synthetase by, 330
  metabolic effects of chlormadinone and conventional, 785
Corpus luteum, biopsy of, levels of FSH, LH and progesterone related to ovulation by, 396
  function after hysterectomy, 30
  regression induced by prostaglandin, 544
Corticosteroid(s), in blood and cerebrospinal fluid, 208
  stimulation of secretion of, in man with triazine derivative, 151
Corticosteroid binding globulin, binding of steroid conjugates to, 166
Corticosterone, adrenal tumor produced by, 457
Cortisol, episodic secretion of, in Cushing's syndrome, 686
    by normal man, 411
  measurement of plasma, in children and adults, 185
  metabolism, extra-adrenal action of ACTH on, 778
  metabolites of, in infant urine, 71
    in red cells, 40
  plasma, comparison of methods, 185
  secretion determined by urinary methods, 114
  secretion rates of precursors of, in congenital adrenal hyperplasia, 361
  stimulation of GH production by human pituitary tissue by, 538
  urinary free, measurement by protein binding, 443
Cretinism, endemic, in Ecuador, 228
  T_4 biosynthesis in, 308
Cushing's disease, in Addison's disease, 573
Cushing's syndrome, anomalous response to metyrapone in, 125
  due to ectopic ACTH from adenocarcinoma of lung, cure of, 590
  episodic cortisol secretion in, 686

Diabetes insipidus, chlorpropamide in, 215
  effect on urinary excretion of water in, 528

Diabetes insipidus, mechanism of chlorpropamide action in, 488
Diabetes mellitus, insulin response to prolonged glucose infusion in, 535
insulin secretion in, after repetitive glucose loads, 602
Diamine oxidase in pregnancy and trophoblastic diseases, 59
Diphenylhydantoin, inhibition of insulin secretion by, in isolated perfused pancreas, 400
Diuresis, hypovolemia and impaired water, 252
Down's syndrome, auto-immune disease and thyroid function in, 792

Ectopic ACTH syndrome, cure of adenocarcinoma of lung, 590
Epinephrine, influence of, on GH release, 134
urinary excretion of, during pregnancy, 357
Erythrocytes, distribution of cortisol and its metabolites between plasma and, 40
Estradiol, binding assay for, employing pregnancy plasma, 351
formation of, in anencephalus, 763
metabolism of, in biliary obstruction, 161
norethandrolone effect on, 598
in pregnancy and labor, and post partum, 497
Estriol, formation of, in anencephalus, 763
Estrogen(s), binding of, by breast carcinoma, 639
effects of, on androgen production and LH in hirsute women, 727
on metyrapone metabolism and ACTH release, 259
plasma, in pregnancy, labor and puerperium, 497
Eunuchism, XYY karyotype in phenotypic female, 111

FFA, effect on, of extended low dose of heparin on levels of, 670
of repetitive glucose loads on plasma concentrations of, 602
FSH, electroshock effect on serum concentration of, 51
failure of release by oxytocin, 672
half-life of, after hypophysectomy, 325
inappropriate secretion of, in polycystic ovarian disease, 435
levels of, related to ovulation by corpus luteum biopsy, 396
short luteal phases due to deficiency of, 246

Genetics, influence on increased T_4-binding globulin, 66
GH, dependence on testosterone, 85
disappearance rate of endogenous and exogenous, in man, 386
effect of iv glucagon on 17-OHCS and, 117
electroshock effect on serum concentration of, 51
human, clearance and production rates, 632
hypoglycemic threshold for release of, 619
monkey, secretion by adenohypophysis, independent of prolactin, 512
secretion of, effect of medroxyprogesterone acetate on, in acromegaly, 646
during and after exposure to cold, 393
stimulation of, by cortisol in tissue culture, 538
testosterone effect on, in anorchia and delayed puberty, 615
therapy for short stature, 1
Glucagon, effects on carbohydrate and lipid metabolism in thyroid disease, 372
iv, effect on GH and 17-OHCS, 117
Glucose, effect of repetitive loads of, on plasma concentrations of glucose, insulin and FFA, 602
prolonged infusion of, insulin response during, 535
Glucose tolerance test, insulin secretion after repetitive glucose loads, 602
Goiter, biosynthesis of T_4 in cretins with congenital, 308
endemic, iodine intake in the U.S.A. and, 659
thyroid hormone kinetics in, 479
partial defect of iodide trapping, 302
T_4 and TSH levels in, in Argentina, 680
Gonadotrophin-producing testicular tumors, Leydig cell function in, 504
Graves' disease, suppressibility of thyroid function during antithyroid drug treatment, 406

HCG, solid phase radioimmunoassay of, 153
Heparin, effect of extended low dose on FFA levels, 670
HGH, metabolic clearance rate of, 632
production rate of, 632
Hirsutism, estrogen effects in women with, 727
Histamine, diamine oxidase inactivation of, in pregnancy and trophoblastic diseases, 59
Hormones, interpretation of plasma SA curves of blood-borne, 707
HPL, complement fixation assay of, 769
17-Hydroxycorticosteroids, effect of glucagon on GH and, 117
17-Hydroxylation defect in corticosterone producing adrenal tumor, 457
18-Hydroxylation by human adrenal tissue, 402
Hydroxyproline, urinary, as index of bone collagen formation, 282
Hydroxysteroid dehydrogenase, congenital adrenal hyperplasia due to deficiency of, 719
17-Hydroxysteroids, urinary, 71
Hypercortisolism, Cushing's disease without, 573
Hyperparathyroidism, urinary excretion of cyclic AMP in, 316
Hyperplasia, secretion rates of corticosteroids in congenital adrenal, 361
Hyperthyroidism, effect of antithyroid therapy on thyroglobulin-like substances in, 520
glucagon effects in, 372
influence of iodine deficiency on PBI in, 120
iodide effect on thyroidal iodine turnover in, 469
metastatic choriocarcinoma associated with, 423
serum LATS content and thyroid suppressibility during treatment of, 524
Hypoadrenalism, cortisol, urinary free, measurement by protein binding in, 443
Hypoglycemia, threshold for HGH release in, 619
Hypoparathyroidism, urinary excretion of cyclic AMP in, 316
Hypophysectomy, half-life of FSH after, 325
Hypopituitarism, influence of epinephrine-pro-

XUM

pranolol infusions on GH release in, 134
Hypothalamo-hypophyseal system, narcotic effects on, 24
Hypothyroidism, absorption of oral thyroxine in, 798
effects of glucagon in, 372
Hypovolemia, and impaired water diuresis, in adrenal insufficiency, 252
Hysterectomy, corpus luteum function after, 30

Insulin, diphenylhydantoin inhibition of secretion of, in isolated perfused pancreas, 400
plasma, and Staub-Traugott effect, 602
release of, by human insulinoma tissue, 273
response of, during prolonged glucose infusion, 535
secretion in acromegaly, 288
Iodide, effects of, on thyroid, 76
on thyroidal iodine turnover, 469
partial defect of trapping of, 302
Iodine, influence of deficiency of, on PBI in hyperthyroidism, 120
intake in the U.S.A., 659
iodide effect on turnover of thyroidal, in hyperthyroidism, 469
thyroidal uptake of, suppression after iodocyanine green, 531
Iodocyanine green, suppression of thyroidal iodine uptake after, 531

Kidney, chronic failure of, parathormone in, 15

Labor, concentration of estradiol in, 497
LATS, content of, and thyroid suppressibility during treatment of hyperthyroidism, 524
Leydig cells, function of, in men with choriocarcinoma, 504
LH, biphasic pattern of midcycle discharge of, 269
electroshock effect on serum concentration of, 51
inappropriate secretion of, in polycystic ovarian disease, 435
levels of, related to ovulation by corpus luteum biopsy, 396
and progesterone concentration in rhesus menstrual cycle, 105
solid phase radioimmunoassay of, 153
LH cell, fluorescence of, 181
Lipids, glucagon effects on metabolism of, in thyroid disease, 372
Liver, induction of ALAS in, by oral contraceptives, 330
Luteal phase, short, hormones, 246

Medroxyprogesterone, adrenal function and, in true precocious puberty, 653
effect on testosterone metabolism, 449
treatment of active acromegaly with, 646
Menstruation, biphasic pattern of LH discharge during midcycle, 269
short luteal phases in, 246
Methadone, hypothalamic-pituitary-adrenal axis in heroin addicts treated with, 24
Metyrapone, anomalous response to, in Cushing's syndrome, 125

estrogen effect on ACTH release and metabolism of, 259
Mosaicism, XO/XX/XXX, with possible congenital adrenal hyperplasia, 666
MSH, effect of antibodies to, 565
elevation in Addison's disease, 573

Neoplasms, ovarian lipid cell, 336
testicular, gonadotrophin secretion by, and Leydig function in, 504
Nephrectomy, failure to detect an effect on PTH levels in azotemic subjects, 677
Neuroblastoma, catecholamine metabolism in, 580
Nicotinic acid, hormone effect on biosynthesis of, from tryptophan, 380
Norepinephrine, urinary excretion of, during pregnancy, 357
Norethandrolone, effect on estradiol metabolism in biliary obstruction, 598

Obesity, slow-moving TBG in, 752
Ovary, malignant lipid cell tumor of, 336
neutral steroid sulfate in vein blood of human, 533
Ovulation, levels of FSH, LH and progesterone related to, 396
Oxytocin, failure of FSH release by, 672

Parathyroid hormone, in renal osteodystrophy, 15
response in pseudohypoparathyroidism, after vitamin D_2, 609
PBI, influence of iodine deficiency in hyperthyroidism, 120
Peptides, TSH release by oral synthetic, 148
Phosphorus, in renal osteodystrophy, 15
Phytosterols, circulating, 174
Pituitary gland, secretion of prolactin and GH by, in monkeys, 512
Pituitary tissue, cortisol stimulation of GH production by, 538
Pituitary-adrenal system, effect of medroxyprogesterone on, in precocious puberty, 653
Placenta, complement fixation assay of lactogen in human, 769
synthesis of progesterone from plasma cholesterol in, 624
Placental lactogen, solid phase radioimmunoassay of human, 153
Polycystic ovarian disease, inappropriate secretion of FSH and LH in, 435
Polypeptide hormones, complex effects of antibodies to, 565
Pregnancy, plasma estrogens in, 497
serum diamine oxidase in, 59
urinary excretion of epinephrine and norepinephrine during, 357
Progesterone, conversion of plasma cholesterol to placental, 624
levels of, related to ovulation by corpus luteum biopsy, 396
and LH concentration in rhesus menstrual cycle, 105
prostaglandin stimulation of synthesis of, 345
and saline-induced abortion, 774

Progesterone, secretion of, effects of prostaglandin on, 544
Proinsulin and insulin in insulinoma, 273
Prolactin, monkey, secretion by adenohypophysis independent of GH, 512
Propranolol, influence on GH release, 134
Prostaglandin(s), corpus luteum regression induced by, 544
and progesterone synthesis, 345
Protein binding assay, for estradiol, 351
measurement of urinary free corticoids by, in hypoadrenal states, 443
Pseudohypoparathyroidism, PTE responsiveness induced by vitamin D_2, 609
Pseudopheochromocytoma, after venography, 138
PTH, failure to detect effect of nephrectomy on, in azotemic subjects, 677
Puberty, delayed, testosterone effect on GH in, 615
true precocious, medroxyprogesterone in treatment of, 653
Puerperium, concentration of estradiol in, 497

Radioimmunoassay, of aldosterone in plasma, 682
solid phase, using polypropylene discs, 153

Sex chromosome abnormality, 111
Short stature, HGH therapy for, 1
Solid phase radioimmunoassay, 153
Spermatogenesis, clomiphene in normal human, 196
Stein-Leventhal syndrome, inappropriate FSH and LH secretion in, 435
Steroid conjugates, binding of, 166
Steroid sulfates in human ovarian vein blood, 533
Steroids, metabolism and conjugation in premature neonate, 96
Sulfates, neutral steroid, in human ovarian vein blood, 533

T_3, absorption in man, 675
kinetics of, in endemic goiter, 479
T_4, absorption of oral, in hypothyroid and normal man, 798
biosynthesis of, in cretins, 308
kinetics of, in endemic goiter, 479
and serum TSH in goitrous subjects in Argentina, 680
T_4-binding globulin, genetic decrease in, 131
increased, relation of genetics to, 66
T_4-binding proteins, separation in polyacrylamide, 237
TBG, slow moving, in human sera, 752
Testis, biosynthesis of testosterone in fetal, 128
Testosterone, action of, and GH, 85
biosynthesis in fetal testis, 128
effect on GH in anorchia and delayed puberty, 615
medroxyprogesterone effect on metabolism of, 449
Thyroglobulin, low iodine content, in patients receiving antithyroid therapy, 520
Thyroid gland, antagonists of, prediction of long-term results in thyrotoxicosis, 540
auto-immune disease and function of, in Down's syndrome, 792
iodide effects on, 76
suppressibility of function of, during antithyroid drug treatment in Graves' disease, 406
Thyroid hormone, binding of, in human plasma, 733
kinetics of, in endemic goiter, 479
Thyroid tablets, USP desiccated, 102
Thyroidal iodine uptake, suppression by iodocyanine green, 531
Thyroiditis, juvenile chronic lymphocytic, 293
Thyrotoxicosis, prediction of long-term results of antithyroid drug therapy for, 540
TRF, oral synthetic peptide, release of TSH, 148
Triazine, corticosteroid secretion in man with derivative of, 151
Trophoblastic disease, diamine oxidase in, 59
Tryptophan, hormone effect on biosynthesis of nicotinic acid from, 380
TSH, cold effect on, 430
electroshock effect on serum concentration of, 51
release of, by oral synthetic peptide derivatives with TRF activity, 148
and thyroxine in goitrous subjects in Argentina, 680

Vitamin D_2, effect on PTE responsiveness in pseudohypoparathyroidism, 609

CONTENTS OF VOLUME 30

No. 1, January 1970

Effectiveness of Long-Term Human Hormone Therapy for Short Stature in Children with Growth Hormone Deficiency 1
L. F. Soyka, H. H. Bode, J. D. Crawford, and F. J. Flynn, Jr.

Plasma Parathormone, Calcium and Phosphorus in Patients with Renal Osteodystrophy Undergoing Chronic Hemodialysis 15
S. M. Genuth, L. M. Sherwood, V. Vertes, and J. R. Leonards

Hypothalamic-Pituitary-Adrenal Axis in Methadone-Treated Heroin Addicts 24
P. Cushman, Jr., B. Bordier, and J. G. Hilton

Functional Activity of the Corpus Luteum Following Hysterectomy 30
C. G. Beling, S. L. Marcus, and S. M. Markham

Corticosteroids in Human Blood: IV. Distribution of Cortisol and Its Metabolites Between Plasma and Erythrocytes *in Vivo* 40
L. Kornel, J. T. Moore, Jr., and I. Noyes

Effects of Convulsive Electroshock on Serum Concentrations of Follicle Stimulating Hormone, Luteinizing Hormone, Thyroid Stimulating Hormone and Growth Hormone in Man 51
R. J. Ryan, D. W. Swanson, C. Faiman, W. E. Mayberry, and A. J. Spadoni

Serum Diamine Oxidase in Pregnancy and in Trophoblastic Diseases 59
E. E. Torok, J. I. Brewer, and R. E. Dolkart

Increased Serum Thyroxine-Binding Globulin Capacity: Inheritance and Linkage Relationships 66
P. J. Fialkow, E. R. Giblett, and B. Musa

Evidence for 3α,17,21-Trihydroxy-5α-pregnane-11,20-dione ("ATHE"), a Metabolite of Cortisol in Urine of Infants 71
N. I. Gold and J. F. Crigler, Jr.

Effects of Iodide on Thyroid Stimulation 76
G. Burke

Anabolic and Androgenic Effect of Testosterone in Sexually Immature Boys and Its Dependency on Growth Hormone 85
M. Zachmann and A. Prader

C_{21} Steroid Metabolism and Conjugation in the Human Premature Neonate. I. Urinary Excretion and the Response to ACTH 96
J. R. Ducharme, G. Leboeuf, and T. Sandor

Potency of United States Pharmacopeia Desiccated Thyroid Tablets as Determined by the Antigoitrogenic Assay in Rats 102
C. N. Mangieri and M. H. Lund

Serum Luteinizing Hormone and Progesterone Concentration During the Menstrual Cycle of the Rhesus Monkey 105
K. T. Kirton, G. G. Niswender, A. R. Midgley, Jr., R. B. Jaffe, and A. D. Forbes

LETTERS TO THE EDITOR

XYY Karyotype in Eunuchoidal Phenotypic Female 111
K. Boczkowski

Problems Related to the Determination of Cortisol Secretion Rate in Man When Using "Urinary" Methods 114
A. Kowarski, F. M. Kenny, and C. J. Migeon

Effect of Intravenous Glucagon on Circulating Levels of Growth Hormone and 17-Hydroxycorticosteroids 117
E. Danforth, Jr., and P. Rosenfeld

Influence of Iodine Deficiency Upon PBI in Hyperthyroidism 120
G. Pineda, E. Silva, A. Gianetti, C. Stevenson, and J. Barzelatto

Anomalous Response to Metyrapone in Cushing's Syndrome Due to Adrenocortical Adenoma 125
L. F. Pennington, R. A. Kreisberg, and J. M. Hershman

PRELIMINARY COMMUNICATIONS

De Novo Testosterone Biosynthesis in the Human Fetal Testis 128
G. B. Serra, G. Pérez-Palacios, and R. B. Jaffe

A TBG-Deficient Family with a Male Exhibiting Decreased But Not Zero TBG Levels 131
R. C. Roberts, T. F. Nikolai, and F. N. Lohrenz

Influence of Epinephrine-Propranolol Infusions on Growth Hormone Release in Normal and Hypopituitary Subjects 134
A. Parra, R. B. Schultz, T. P. Foley, Jr., and R. M. Blizzard

Pseudopheochromocytoma — Adrenomedullary Response to Venography 138
V. DeQuattro, A. H. Margolin, and L. O. Stocks

RAPID COMMUNICATIONS

Release of TSH by Oral Administration of a Synthetic Peptide Derivative with TRF Activity 148
W. Vale, R. Burgus, T. F. Dunn, and R. Guillemin

Stimulation of Corticosteroid Secretion in Man with a Triazine Derivative 151
J. A. Pittman, D. G. Read, and J. M. Hershman

No. 2, February 1970

A Method of Solid Phase Radioimmunoassay Utilizing Polypropylene Discs 153
P. G. Crosignani, R. M. Nakamura, D. N. Hovland, and D. R. Mishell, Jr.

Estradiol Metabolism in Total Extrahepatic Biliary Obstruction 161

L. Hellman, B. Zumoff, J. Fishman, and T. F. Gallagher

Binding of Steroid Conjugates to Human Corticosteroid Binding Globulin 166
M.-C. Lebeau and E.-E. Baulieu

Circulating Phytosterols in Normal Females, Lactating Mothers and Breast Cancer Patients 174
J. G. Haddad, Jr., S. J. Couranz, and L. V. Avioli

Immunofluorescent Localization of the LH Cell of the Human Adenohypophysis 181
J. Bain and C. Ezrin

Measurement of Plasma Cortisol in Children and Adults: A Comparison of the Double Isotope Derivative Assay, Competitive Protein-Binding Analysis and the Modified Competitive Protein-Binding Analysis 185
N. F. Iturzaeta, D. A. Hillman, and E. Colle

Comparison of Purified Human and Porcine ACTH in Man 190
G. V. Upton, D. R. Hollingsworth, S. Lande, A. B. Lerner, and T. T. Amatruda, Jr.

Quantitation of Normal and Abnormal Germinal Cells Following Administration of Clomiphene Citrate in Normal Men 196
G. V. Heller and C. G. Heller

Corticosteroid Levels in Blood and Cerebrospinal Fluid in Various Diseases 208
T. Uete, S. Nishimura, H. Ohya, T. Shimomura, and Y. Tatebayashi

Antidiuretic Effect and Complications of Chlorpropamide Therapy in Diabetes Insipidus 215
B. Webster and J. Bain

Endemic Cretinism in the Andean Region of Ecuador 228
R. Fierro-Benitez, J. B. Stanbury, A. Querido, L. DeGroot, R. Alban, and J. Cordova

Separation of Thyroxine (T_4)-Binding Proteins of Human Serum in Polyacrylamide Gel at pH 7.4. I. Effect of pH on Distribution of Tracer Quantities of T_4 237
P. J. Davis and R. I. Gregerman

The Short Luteal Phase 246
C. A. Strott, C. M. Cargille, G. T. Ross, and M. B. Lipsett

Role of Hypovolemia in the Impaired Water Diuresis of Adrenal Insufficiency 252
G. L. Ackerman and C. L. Miller

COMMENTS

Effect of Estrogen on the Metabolism of Metyrapone and Release of ACTH 259
A. W. Meikle, W. Jubiz, S. Matsukura, G. Harada, C. D. West, and F. H. Tyler

RAPID COMMUNICATION

Biphasic Pattern of LH Midcycle Discharge 269
K. Thomas, R. Walckiers, and J. Ferin

No. 3, March 1970

Synthesis and Release of Proinsulin and Insulin by Human Insulinoma Tissue 273
N. R. Lazarus, T. Tanese, R. Gutman, and L. Recant

Nondialyzable Urinary Hydroxyproline as an Index of Bone Collagen Formation 282
J. G. Haddad, Jr., S. Couranz, and L. V. Avioli

Insulin Secretion in Acromegaly 288
S. E. Fineberg, T. J. Merimee, D. Rabinowitz, and P. J. Edgar

Juvenile Chronic Lymphocytic Thyroiditis: Clinical, Laboratory and Histological Correlations 293
A. H. Greenberg, P. Czernichow, W. Hung, W. Shelley, T. Winship, and R. M. Blizzard

A Case of a Partial Defect of the Iodide Trapping Mechanism 302
S. N. Papadopoulos, A. G. Vagenakis, A. Moschos, D. A. Koutras, N. Matsaniotis, B. Malamos, J. Bismuth, M. M. Bechet, and S. Lissitzky

Thyroxine Biosynthesis in Human Goitrous Cretinism 308
N. M. Alexander and G. N. Burrow

Factors Influencing the Urinary Excretion of 3′,5′-Adenosine Monophosphate in Humans 316
A. L. Taylor, B. B. Davis, L. G. Pawlson, J. B. Josimovich, and D. H. Mintz

Disappearance Rates of Endogenous Follicle-Stimulating Hormone in Serum Following Surgical Hypophysectomy in Man 325
S. S. C. Yen, L. A. Llerena, O. H. Pearson, and A. S. Littell

Induction of Hepatic δ-Aminolevulinic Acid Synthetase by Oral Contraceptive Steroids 330
A. B. Rifkind, P. N. Gillette, C. S. Song, and A. Kappas

Malignant Lipid Cell Tumor of the Ovary: Clinical, Biochemical and Etiologic Considerations 336
M. B. Lipsett, M. A. Kirschner, H. Wilson, and C. W. Bardin

Prostaglandin Stimulation of *in Vitro* Progesterone Synthesis 345
L. Speroff and P. W. Ramwell

Measurement of Plasma Estradiol-17β by Competitive Binding Assay Employing Pregnancy Plasma 351
M. L. Dufau, A. Dulmanis, K. J. Catt, and B. Hudson

Urinary Excretion of Epinephrine and Norepinephrine During Pregnancy 357
F. P. Zuspan

Secretion Rates of Cortisol and Aldosterone Precursors in Various Forms of Congenital Adrenal Hyperplasia 361
M. I. New and M. P. Seaman

Studies on the Carbohydrate and Lipid Metabolism in Thyroid Disease: Effects of Glucagon 372
L. J. Levy, J. J. Adesman, and G. Spergel

Effect of Hormones on the Biosynthesis of Nicotinic Acid from Tryptophan in Man 380
H. Wolf, R. R. Brown, J. M. Price, and P. O. Madsen

XUM

Disappearance Rate of Endogenous and Exogenous Human Growth Hormone in Man 386
S. Refetoff and P. H. Sönksen

COMMENTS

Human Growth Hormone Secretion in Normal Adult Subjects During and After Exposure to Cold 393
Y. Okada, K. Miyai, H. Iwatsubo, and Y. Kumahara

Serum Levels of Follicle Stimulating Hormone and Luteinizing Hormone and of Plasma Progesterone Related to Ovulation by Corpus Luteum Biopsy 396
M. A. Yussman and M. L. Taymor

Inhibition of Insulin Secretion by Diphenylhydantoin in the Isolated Perfused Pancreas 400
S. R. Levin, J. Booker, Jr., D. F. Smith, and G. M. Grodsky

18-Hydroxylation by Human Adrenal Tissue *in Vitro* 402
A. F. de Nicola, H. Traikov, M. K. Birmingham, J. D. Palmer, and D. W. Ruddick

Suppressibility of Thyroid Function During Treatment with Antithyroid Drugs in Graves' Disease 406
J. A. Wils and P. W. C. Kloppenborg

No. 4, April 1970

Cortisol Is Secreted Episodically by Normal Man 411
L. Hellman, F. Nakada, J. Curti, E. D. Weitzman, J. Kream, H. Roffwarg, S. Ellman, D. K. Fukushima, and T. F. Gallagher

Metastatic Choriocarcinoma Associated with Hyperthyroidism 423

SUBJECT INDEX, VOLUME 31

Acidosis, renal tubular, in salt-losing syndrome of CAH, 447
Acromegaly, dexamethasone effects on GH levels in, 502
GH dynamics in, 239
treatment of, metabolic and clinical studies of, 180
Schwann cell dysfunction in, 140
Adenoma, Cushing's syndrome caused by adrenocortical, responsive to metyrapone, 199
Adrenal, hyperfunctioning, impulsive and basal secretion phases of ACTH in, 491
Adrenal cortex hormones, influence of iv calcium gluconate on secretion of, 336
Adrenocorticotropic hormone, cancer of colon secreting, 591
human hypophyseal cells which produce, 347
impulsive and basal secretion phases in hyperfunctioning adrenal, 491
plasma renin activity and aldosterone secretory rate during chronic administration of, 581
Adrenogenital syndrome, renal tubular acidosis in congenital adrenal hyperplasia, 447
Albright, Fuller (1900–1969), 607
Albright's osteodystrophy, hyperparathyroidism with, 271
Aldosterone, radioimmunoassay measurement, of plasma, 1
of secretion rate of, 507
secretory rate of, during chronic ACTH administration, 581
Aldosteronism, primary, spironolactone effects on, 659
Amino acids, effects of short-term dexamethasone on urinary and plasma free, in children, 95
Aminophylline, effect of, on secretion of insulin, glucagon, LH and GH in humans, 153
Anorchia, bilateral, HCG test in prepubertal boys with, 526
Anosmia, hypogonadotropic hypogonadism with, unresponsive to clomiphene citrate, 267
Antibodies, GH, in patients treated with different preparations of HGH, 679
LATS formation by thyrotropin complexes of, 48
specificity of, in LATS, 445
Antidiuretic hormone
See Vasopressin
Arginine vasotocin, in human cerebrospinal fluid, 369
Arthritis, rheumatoid, transformation of cortisol in synovial tissue of, 334
Astrocytoma, acetylation of cortisol by, 589

Calcitonin, effects of, in Paget's disease and polyostotic fibrous dysplasia, 283
high biological activity of synthetic human, 116
porcine, effect on hypercalcemia in man, 70
Calcium, dietary, perturbation of, in patients with abnormal calcium deposition, 204
urinary, and phosphorus homeostasis in hypercortisolism, calcium infusion test for, 260
Calcium gluconate, influence of iv administration of, on 11-hydroxycorticosteroid secretion by adrenal cortex, 336
Castration, acute effect on serum FSH and LH in adult woman, 43
Chlorpropamide, mechanism of antidiuresis of, in diabetes insipidus, 552
Circadian rhythm, LH and FSH excretion in normal children with, 517
Clomiphene, effects of, on estrogen-induced changes in plasma proteins in monkeys, 654
in polycystic ovary syndrome, 7
hypogonadotropic hypogonadism with anosmia unresponsive to, 267
increased LH release after LH-RH in men pretreated with, 689
Corpus luteum, relationship between serum gonadotropin and function of, 7
Corticosteroid, prevention of recurrence of acute thyroiditis following withdrawal of, 705
Cortisol, acetylation of, by human astrocytoma, 589
changes in, after a mile run in conditioned subjects, 339
clarification of discrepancies in secretion rate of, 625
effect of o,p′-DDD on secretory pattern of, in Cushing's syndrome, 227
simultaneous metabolism of cortisol sulfate and, in normal adults, 439
transformation of, in rheumatoid synovial tissue *in vitro*, 334
Cryptorchidism, HCG test in prepubertal boys with, 526
Cushing's syndrome, caused by metyrapone-responsive adrenocortical adenoma, 199
o,p′-DDD on cortisol secretory pattern in, 227
pitfalls of functional tests for, in childhood and adolescence, 254

Dehydroepiandrosterone, contribution to testosterone of, in virilized patient with arrhenoblastoma, 702
Dexamethasone, effect on GH levels in acromegaly, 502
short-term administration of, effects on urinary and plasma free amino acids in children, 95
Diabetes insipidus, mechanism of chlorpropamide antidiuresis in, 552
Dihydroprogesterone, determination of, throughout normal human pregnancy, 511
Dihydrotestosterone, in human peripheral plasma, 362
Diuresis, anti-, mechanism of chlorpropamide, in diabetes insipidus, 552

Estradiol, estimation of, in low level urines, 409
Estrogen, clomiphene effects on changes in plasma proteins in monkeys induced by, 654
metabolism of catechol ethers of, 324
serum gonadotropin responses to, in castrated females, 376

Estrone, estimation of, in low-level urines, 409
normal values and variations during menstrual cycle, by radio-ligand assay, 76
Ethers, metabolism of catechol estrogen, 324
Exertion, plasma cortisol changes following, 339
Eye, immunosuppressive therapy for changes in, in Graves' disease, 307

Fatty acids, determination of endogenous component of alimentary, 640
insulin and GH effects on flux rates of, 647
normal rise in, during fasting in patients with hypopituitarism, 233
Fetus, thyrotropin in pituitaries of human, 565
Fibrous dysplasia, polyostotic, calcitonin effects in Paget's disease and, 283
Follicle-stimulating hormone, acute effect of castration of adult woman on, 43
determination of, in children, 248
nonidentity with follicle-stimulating activity of human chorionic gonadotropin, 91
from postmenopausal urine and the pituitary, immunologic behavior of, 18
radioimmunoassayable, concentration in blood of, throughout human pregnancy, 213
24-hour excretion of, in normal children, 517

Globulin, from peripheral blood of Graves' disease patients, action on isolated bovine thyroid cells, 480
See also Thyroglobulin
Glucagon, aminophylline effect on secretion of, in humans, 153
stimulation of human GH by, 222
Glucose, insulin and GH effects on flux rates of, 647
Glucose tolerance test, iv, modification by pregnancy, 33
Goiter, congenital, iodoalbumin and iodopreabumin secretion by, 60
exophthalmic, action of globulin and lymphocytes from blood of patients with, on isolated bovine thyroid cells, 480
immunosuppressive therapy for eye changes with, 307
thyroid function in sibships in endemic region for, 134
Gonadotropins, chorionic, rapid radioimmunoassay of LH using, 693
follicle-stimulating activity of human chorionic, evidence for nonidentity with FSH, 91
human chorionic, stimulation test of, in cryptorchidism, bilateral anorchia and male pseudohermaphroditism, 526
Graves' disease, action of globulin and lymphocytes from peripheral blood of patients with, on isolated bovine thyroid cells, 480
immunosuppressive therapy for eye changes of, 307
radioisotopic thyroidolymphography in, 315

Hermaphroditism, pseudo-, decreased testosterone retention by preputial gland nuclei from androgen-insensitive rat with, 113
HCG test in prepubertal boys with, 526
Hirsutism, familial study of, 556
Hydroxycorticosteroid assay, reliability of urinary, 52
Hydroxyestriol, fate of, in man, 436
Hydroxyproline, total urinary excretion of, after vitamin D in hypoparathyroidism, 595
Hydroxysteroid dehydrogenase, plasma and urinary steroids in boy with deficiency of, 162
Hypercalcemia, experimental, treatment with oral phosphates, 531
porcine calcitonin effect on, in man, 70
Hypernatremia, chronic, with inflammation of neurohypophysis, 391
Hyperparathyroidism, with Albright's osteodystrophy, 271
Hyperthyroidism, impulsive and basal secretion phases of ACTH in, 491
Hypocalcemia, influence of age on phosphaturic response to induced, 665
Hypoglycemia, GH response to insulin-induced, in diabetes secondary to chronic calcific pancreatitis, 86
impairment of GH secretion during pregnancy in response to, 29
insulin-induced, pituitary response in obese subjects to, 546
Hypogonadism, hypogonadotropic, with anosmia, unresponsive to clomiphene citrate, 267
Hyponatremia, due to sulfonylurea compounds, 570
Hypoparathyroidism, total urinary hydroxyproline excretion after vitamin D in, 595
Hypopituitarism, normal rise in plasma FFA during fasting in patients with, 233
Hypothalamus, purification of releasing hormones of, 291
Hypothermia, TSH elevation during surgical, 372
Hypothyroidism, post-mortem ^{131}I-thyroxine distribution in woman with, 88

Insulin, aminophylline effect on secretion of, in humans, 153
augmented response of plasma, progesterone, pregnancy and, 24
effects of, on flux rates of plasma glucose and FFA, 647
Streptozotocin effect on plasma, in patient with malignant islet cell tumor, 215
Insulinoma, fluorescent reaction for monoamines in, 580
Iodine, iodide-perchlorate discharge test to detect organification defect of thyroid for, 144
metabolism of, in anephric patients receiving chronic peritoneal dialysis, 277
release of thyroid, stimulation by serum of thyroid-immunized rabbits, 603
Iodoalbumin, secretion of, by congenital goiter containing thyroglobulin and, 60
Islet cell tumor, malignant, Streptozotocin effect on plasma insulin in patient with, 215

Kallmann's syndrome, hypogonadotropic hypogonadism with, unresponsive to clomiphene citrate, 267
Kwashiorkor, antidiuretic hormone values in plasma and urine of children with, 312

XUM

Leydig cell function and pituitary in uremia, 14
Lipemia, endogenous component of alimentary, 640
Long-acting thyroid stimulator, antibody specificity of, 445
formation of, by human thyrotropin-antibody complexes, 48
specific and nonspecific responses in bioassay of, 382
in vitro binding reaction between thyroid microsomes and, 119
Luteinizing hormone, acute effect of castration of adult woman on, 43
age and sex factors in urinary excretion of radioimmunoassayable, 428
aminophylline effect on secretion of, in humans, 153
determination of, in children, 248
increased release of, after LH-RH in men pretreated with clomiphene, 689
rapid immunoassay of, 693
24-hour excretion of, in normal children, 517
Lymph, GH diffusion into thoracic duct, 632
Lymphocytes, from peripheral blood of Graves' disease patients, action on isolated bovine thyroid cells, 480

Mentation, metabolism and, 461
Metabolism and mentation, 461
Metyrapone, Cushing's syndrome caused by adrenocortical adenoma responsive to, 199
effect on GH secretion, 301
Microsomes, placental, testosterone binding to serum proteins on aromatization of, 584
Monoamines, fluorescent reaction for, in insulinoma, 580

Neurohypophysis, chronic hypernatremia associated with inflammation of, 391

Obesity, impulsive and basal secretion phases of ACTH in, 491
pituitary response to insulin-induced hypoglycemia in, 546
Ovulation, clomiphene citrate effect on, in polycystic ovary syndrome, 7

Paget's disease, calcitonin effects in, 283
Pancreatitis, GH response to insulin-induced hypoglycemia in diabetes secondary to chronic calcific, 86
Parathyroid diseases, proposed new classification, 271
Peritoneal dialysis, iodine and thyroxine metabolism in anephric patients receiving chronic, 277
Phosphates, treatment of experimental hypercalcemia with oral, 531
urine, influence of age on response to induced hypocalcemia, 665
Phosphorus, urinary calcium and, in hypercortisolism, calcium infusion test for, 260
Pituitary, immunologic behavior of FSH from postmenopausal urine and, 18
late post-glucose rise in plasma GH as test of function of, 84
new test of reserve capacity to secrete TSH, 98
posterior, chronic hypernatremia associated with inflammation of, 391
response to insulin-induced hypoglycemia of, in obese subjects, 546
thyrotropin in human fetal, 565
Pituitary-adrenal function tests, pitfalls of, for establishment of Cushing's syndrome in childhood and adolescence, 254
Placenta, mechanism controlling estrogen synthesis from conjugated precursors in, 670
Pregnancy, FSH circulating in blood throughout, 213
impairment of GH secretion in response to hypoglycemia during, 29
iv glucose tolerance test modification by, 33
progesterone and augmented plasma insulin response, 24
studies of isolated GH deficiency in, 147
Presidential address, 461
Progesterone, determination of, throughout normal human pregnancy, 511
pregnancy and augmented plasma insulin response, 24
Progestogen, serum gonadotropin responses to, in castrated females, 376
Prolactin, biosynthesis of HGH and, 611
Protein binding of testosterone in thyroid function disorders, therapy effect on, 539

Radioisotope scanning in patients with Graves' disease, 315
Renin, activity of, during chronic ACTH administration, 581

Schwann cells, dysfunction in acromegaly, 140
Sex chromosomes, adult phenotypic male with 46, XX complement, 576
Somatotropin, aminophylline effect on secretion of, in humans, 153
antibodies of, in patients treated with different preparations of HGH, 679
biosynthesis of human, 611
dexamethasone effect on levels of, in acromegaly, 502
diffusion of, into thoracic duct lymph, 632
dynamics of, in acromegaly, 239
effects of, on flux rates of plasma glucose and FFA, 647
glucagon stimulation of human, 222
human, levels in cerebrospinal fluid, 230
impairment of secretion of, in response to hypoglycemia in pregnancy, 29
isolated deficiency of, in pregnancy, 147
late post-glucose rise in plasma, as test of pituitary function, 84
metyrapone effect on secretion of, 301
post-sleep release of human, as test of physiologic GH secretion, 225
response to insulin-induced hypoglycemia in diabetes secondary to chronic calcific pancreatitis, 86
Spironolactone, in primary aldosteronism, 659
Steroids, plasma and urinary, in boy with hydroxysteroid dehydrogenase deficiency, 162
Sulfatase, inhibition of steroid, by endogenous steroids, 670
Sulfonylurea compounds, hyponatremia due to, 570

Technetium 99-pertechnetate, uptake in primary thyroid carcinoma, 81
Testosterone, binding to serum proteins, influence on aromatization by enzymes of human placental hormones, 584
decreased retention of, by preputial gland nuclei from androgen-insensitive pseudohermaphrodite rat, 113
dehydroepiandrosterone contribution to, in virilized patient with arrhenoblastoma, 702
therapy effect on protein binding of, in plasma in thyroid function disorders, 539
Thyrocalcitonin
See Calcitonin
Thyroglobulin, activity in thyroid disease, 422
iodoalbumin and iodoprealbumin secretion by congenital goiter containing, 60
Thyroid, action of globulin and lymphocytes from Graves' disease patients on isolated cells from bovine, 480
disease of, thyroglobulin and thyroid acid protease activity in, 422
effect of therapy on disorders of function of, protein binding of testosterone in, 539
fine structure of colloid cells in, 38
function of, in euthyroid Jamaicans, 450
tests of, 166
in sibships in endemic goiter region, 134
iodide-perchlorate discharge test to detect iodide organification defect of, 144
uptake of technetium 99-pertechnetate in primary carcinoma of, 81
in vitro binding reaction between microsomes of, and LATS, 119
Thyroiditis, prevention of recurrence following corticosteroid withdrawal, 705
Thyrotropin, effect on plasma levels of, in man, of synthetic thyrotropin releasing factor, 109
elevation of, during surgical hypothermia, 372
in human fetal pituitaries, 565
LATS formation by antibody complexes of, 48
new test of reserve capacity of pituitary to secrete, 98
new way of measuring reserve of, 587
radioimmunoassay for, in baboon serum, 700
standards of, 331
Thyrotropin-releasing factor, synthetic, effect on plasma thyrotropin levels in man, 109
Thyrotropin-releasing hormone, synthetic, response to, 457
Thyroxine, metabolism of, in anephric patients receiving chronic peritoneal dialysis, 277
post-mortem ^{131}I distribution of, in hypothyroid woman, 88
re-evaluation of binding of, and free, in human serum by paper electrophoresis, 166
Thyroxine-binding globulin, interconvertibility of two moieties of, on starch gel electrophoresis, 417
Triiodothyronine, radioimmunoassay for, 709
Tryptophan, metabolism of, in males treated with female sex hormones, 397

Vasopressin, chlorpropamide and, in diabetes insipidus, 552
values in plasma and urine of children with kwashiorkor, 312
Vasotocin, arginine, in human CSF, 369

CONTENTS OF VOLUME 31

No. 1, July, 1970

Measurement of Plasma Aldosterone by Radioimmunoassay 1
F. Bayard, I. Z. Beitins, A. Kowarski, and C. J. Migeon

Effect of Clomiphene Citrate in Polycystic Ovary Syndrome: Relationship Between Serum Gonadotropin and Corpus Luteum Function 7
S. S. C. Yen, P. Vela, and K. J. Ryan

Pituitary-Leydig Cell Function in Uremic Males 14
J. C. Chen, D. G. Vidt, E. M. Zorn, M. C. Hallberg, and R. G. Wieland

Immunologic Behavior of Follicle-Stimulating Hormone Extracted from Postmenopausal Urine and the Pituitary 18
P. Franchimont and P. Donini

Progesterone, Pregnancy and the Augmented Plasma Insulin Response 24
R. K. Kalkhoff, M. Jacobson, and D. Lemper

Impairment of Growth Hormone Secretion in Response to Hypoglycemia During Early and Late Pregnancy 29
S. S. C. Yen, P. Vela, and C. C. Tsai

Intravenous Glucose Tolerance Test and Its Modification by Pregnancy 33
J. B. O'Sullivan, P. J. Synder, A. C. Sporer, R. V. Dandrow, Jr., and D. Charles

Fine Structure of Colloid Cells in the Thyroid Gland 38
P. Nève, G. B. Eagleton, and S. H. Wollman

Acute Effect of Castration on Serum FSH and LH in the Adult Woman 43
D. R. Ostergard, A. F. Parlow, and D. E. Townsend

Formation of LATS by Human Thyrotropin-Antibody Complexes 48
J. C. Meek

Aspects of the Reliability of a Urinary 17-Hydroxycorticosteroid Assay 52
G. Sarfaty and M. Tallis

Secretion of Iodoalbumin and Iodoprealbumin by a Congenital Goiter Containing Thyroglobulin and the Iodoalbumins 60
E. D. Furth, R. B. Agrawal, and R. P. Propp

Effect of Porcine Calcitonin on Hypercalcemia in Man 70
S. Kammerman and R. E. Canfield

A Radio-ligand Assay for Plasma Estrone; Normal Values and Variations During the Menstrual Cycle 76
D. Tulchinsky and S. G. Korenman

COMMENTS

Uptake of Technetium 99-Pertechnetate in a Primary Thyroid Carcinoma: Need for Caution in Evaluating Nodules 81
M. Steinberg, R. R. Cavaliere, and S. H. Choy

Late Post-glucose Rise in Plasma Growth Hormone as a Test of Pituitary Function 84
J. M. Streets

Growth Hormone Response to Insulin-Induced Hypoglycemia in Diabetes Secondary to Chronic Calcific Pancreatitis 86
A. I. Vinik, B. I. Joffe, S. M. Joubert, and W. P. U. Jackson

Post-mortem ^{131}I-Thyroxine Distribution in a Hypothyroid Woman 88
G. C. Schussler and M. Verso

Follicle-Stimulating Activity of Human Chorionic Gonadotropin: Further Evidence for Nonidentity with Follicle-Stimulating Hormone 91
R. C. Northcutt and A. Albert

Effects of Short-Term Administration of Dexamethasone on Urinary and Plasma Free Amino Acids in Children 95
R. Zischka, E. Orti, and S. Castells

A New Test of the Reserve Capacity of the Pituitary to Secrete Thyrotrophic Hormone (TSH-Reserve Test) 98
D. G. Ikkos, E. Lakka-Papadodima, and K. Dalles

RAPID COMMUNICATIONS

Preliminary Observations on the Effect of Synthetic Thyrotropin Releasing Factor on Plasma Thyrotropin Levels in Man 109
N. Fleischer, R. Burgus, W. Vale, T. Dunn, and R. Guillemin

Decreased Dihydrotestosterone Retention by Preputial Gland Nuclei from the Androgen Insensitive Pseudohermaphrodite Rat 113
L. Bullock and C. W. Bardin

Unexpectedly High Biological Activity of Synthetic Human Calcitonin 116
A. H. Tashjian, Jr., and E. F. Voelkel

No. 2, August 1970

Studies of an *in Vitro* Binding Reaction Between Thyroid Microsomes and Long Acting Thyroid Stimulator Globulin (LATS): I. Development of Solid-State Competitive Binding Radioassay Methods for Measurement of Antimicrosomal and Antithyroglobulin Antibodies 119
T. Mori, J. Fisher, and J. P Kriss

Thyroid Function in Sibships in Endemic Goiter Region 134
J. Podoba, R. Štukovský, and R. Kováč

Schwann Cell Dysfunction in Acromegaly 140
J. J. Dinn

Significance of Iodide-Perchlorate Discharge Test for Detection of Iodine Organification Defect of the Thyroid 144
K. Takeuchi, H. Suzuki, Y. Horiuchi, and K. Mashimo

Isolated Growth Hormone Deficiency: Studies in Pregnancy 147
J. E. Tyson, A. C. Barnes, T. J. Merimee, and V. A. McKusick

Effect of Aminophylline on the Secretion of 153

Insulin, Glucagon, Luteinizing Hormone and Growth Hormone in Humans
J. W. Ensinck, R. W. Stoll, C. C. Gale, R. J. Santen, J. L. Touber, and R. H. Williams

Plasma and Urinary Steroids in an Eight-Year-Old Boy with 3β-Hydroxysteroid Dehydrogenase Deficiency 162
O. Jänne, J. Perheentupa, and R. Vihko

Re-evaluation of Thyroxine Binding and Free Thyroxine in Human Serum by Paper Electrophoresis and Equilibrium Dialysis and a New Free Thyroxine Index 166
S. Hamada, T. Nakagawa, T. Mori, and K. Torizuka

Successful Treatment of Acromegaly: Metabolic and Clinical Studies in 145 Patients 180
J. H. Lawrence, C. A. Tobias, J. A. Linfoot, J. L. Born, J. T. Lyman, C. Y. Chong, E. Manougian, and W. C. Wei

Cushing's Syndrome Caused by a Metyrapone Responsive Adrenocortical Adenoma 199
R. G. Crystal, L. I. Rose, P. I. Jagger, and D. P. Lauler

Dietary Calcium Perturbation in Patients with Abnormal Calcium Deposition 204
A. N. Kales and J. M. Phang

COMMENTS

On the Concentration of Radioimmunoassayable FSH Circulating in Blood Throughout Human Pregnancy 213
A. F. Parlow, T. A. Daane, and W. J. Dignam

Effect of Streptozotocin on Qualitative Aspects of Plasma Insulin in a Patient with a Malignant Islet Cell Tumor 215
W. G. Blackard, A. R. Garcia, and C. L. Brown, Jr.

Plasma TSH Levels in Endemic Goiter Subjects 220
Y. D. Coble, Jr., and P. O. Kohler

Glucagon Stimulation of Human Growth Hormone 222
J. P. Cain, G. H. Williams, and R. G. Dluhy

Usefulness of Post-sleep Human Growth Hormone Release as a Test of Physiologic Growth Hormone Secretion 225
J. W. Mace, R. W. Gotlin, J. F. Sassin, D. C. Parker, and L. G. Rossman

Effect of o,p'-DDD on Cortisol Secretory Pattern in Cushing's Syndrome 227
L. Hellman, E. D. Weitzman, H. Roffwarg, D. K. Fukushima, K. Yoshida, B. Zumoff, and T. F. Gallagher

Human Growth Hormone Levels in Cerebrospinal Fluid 230
J. A. Linfoot, J. F. Garcia, W. Wei, R. Fink, R. Sarin, J. L. Born, and J. H. Lawrence

Normal Rise in Plasma Free Fatty Acids During Fasting in Patients with Hypopituitarism 233
C. T. Sawin and D. A. Willard

No. 3, September 1970

Growth Hormone Dynamics in Acromegaly 239
A. M. Lawrence, I. D. Goldfine, and L. Kirsteins

Regulation of Human Gonadotropins. VI. Serum Follicle Stimulating and Luteinizing Hormone Determinations in Children 248
P. A. Lee, A. R. Midgley, Jr., and R. B. Jaffe

Pitfalls of Functional Tests for the Establishment of the Etiology of Cushing's Syndrome in Childhood and Adolescence 254
M. A. Rivarola, H. Mendilaharzu, V. Dahl, J. J. Heinrich, R. P. Spada, H. Mora, C. Bergada, and M. Cullen

Urinary Calcium and Phosphorus Homeostasis in Hypercortisolism. I. Evaluation by Means of Calcium Infusion Test 260
B. L. Wajchenberg

Hypogonadotropic Hypogonadism with Anosmia (Kallmann's Syndrome) Unresponsive to Clomiphene Citrate 267
W. G. Schroffner and E. D. Furth

Hyperparathyroidism with Albright's Osteodystrophy: Case Report and a Proposed New Classification of Parathyroid Disease 271
D. Bronsky

Iodine and Thyroxine Metabolism in Anephric Patients Receiving Chronic Peritoneal Dialysis 277
T. H. Oddie, W. J. Flanigan, and D. A. Fisher

Effects of Calcitonin in Paget's Disease and Polyostotic Fibrous Dysplasia 283
N. H. Bell, S. Avery, and C. C. Johnston, Jr.

Purification of Hypothalamic Releasing Hormones of Human Origin 291
A. V. Schally, A. Arimura, C. Y. Bowers, I. Wakabayashi, A. J. Kastin, T. W. Redding, J. C. Mittler, R. M. G. Nair, P. Pizzolato, and A. J. Segal

Effect of Metyrapone on Secretion of Growth Hormone in Man 301
H. Kunita, K. Takebe, K. Nakagawa, S. Sawano, and Y. Horiuchi

Immunosuppresive Therapy for the Eye Changes of Graves' Disease 307
G. N. Burrow, M. S. Mitchell, R. O. Howard, and L. B. Morrow

COMMENTS

Antidiuretic Hormone Values in Plasma and Urine of Malnourished Children 312
S. G. Srikantia and M. Mohanram

Radioisotopic Thyroidolymphography in Patients with Graves' Disease 315
J. P. Kriss

Metabolism of Catechol Estrogen Ethers in Man 324
I. Yoshizawa and J. Fishman

On the Relationship Between Human Thyrotrophin Research Standard A, the United States Pharmacopeia Thyrotrophin Standard (Bovine) and the International Standard for Thyrotrophin (Bovine) 331
L. E. Reichert, Jr.

Transformation of Cortisol in Rheumatoid 334

Synovial Tissue *in Vitro*
T. M. A. ElAttar

Influence of Intravenous Administration of Calcium Gluconate on the 11-Hydroxycorticosteroid Secretion by the Adrenal Cortex 336
Y. Gilboa

Plasma Cortisol Changes Following a Mile Run in Conditioned Subjects 339
L. I. Rose, H. S. Friedman, S. C. Beering, and K. H. Cooper

No. 4, October 1970

Specific Demonstration of the Human Hypophyseal Cells Which Produce Adrenocorticotropic Hormone 347
R. F. Phifer, S. S. Spicer, and D. N. Orth

Dihydrotestosterone in Human Peripheral Plasma 362
T. Ito and R. Horton

Tentative Identification of Arginine Vasotocin in Human Cerebrospinal Fluid 369
S. Pavel

Elevation of Plasma TSH During Surgical Hypothermia 372
J. F. Wilber and D. Baum

Serum Gonadotropin Responses to Estrogen and Progestogen in Recently Castrated Human Females 376
E. E. Wallach, A. W. Root, and C.-R. Garcia

Specific and Nonspecific Responses in the Bioassay of Long-Acting Thyroid Stimulator (LATS) 382
I. J. Chopra, D. H. Solomon, and N. P. Limberg

Chronic Hypernatremia Associated with Inflammation of the Neurohypophysis 391
T. Saito, S. Yoshida, K. Nakao, and R. Takanashi

Studies on Tryptophan Metabolism in Male Subjects Treated with Female Sex Hormones 397
H. Wolf, R. R. Brown, J. M. Price, and P. O. Madsen

Estimation of Estrone and Estradiol in Low Level Urines Using Electron-Capture Gas-Liquid Chromatography 409
D. W. R. Knorr, M. A. Kirschner, and J. P. Taylor

Interconvertibility of Two Different Moieties of Thyroxine Binding Alpha-Globulin on Starch Gel Electrophoresis 417
M. Inada and K. Sterling

Thyroglobulin and Thyroid Acid Protease Activity in Thyroid Disease 422
L. Valenta and T. Lemarchand-Béraud

Urinary Excretion of Radioimmunoassayable Luteinizing Hormone (LH) in Normal Male Children and Adults, According to Age and State of Sexual Development 428
A. Baghdassarian, H. Guyda, A. Johanson, C. J. Migeon, and R. M. Blizzard

Fate of 15α-Hydroxyestriol-^{3}H in Adult Man 436
J. Fishman

Simultaneous Metabolism of Cortisol Sulfate and Cortisol in Normal Human Adults 439
C. St. G. Hall and C. J. P. Giroud

COMMENTS

What is the Antibody Specificity of LATS? 445
A. Fagraeus, J. Jonsson, and D. J. El Kabir

Renal Tubular Acidosis in Salt-Losing Syndrome of Congenital Adrenal Hyperplasia (CAH) 447
O. H. Oetliker and R. R. Zurbrügg

Thyroid Function in Euthyroid Jamaicans 450
J. S. Cobb, M. Adam, P. J. Pegg, P. M. Keane, and J. C. Massey

RAPID COMMUNICATION

Response to Synthetic Thyrotropin-Releasing Hormone in Man 457
J. M. Hershman and J. A. Pittman, Jr.

No. 5, November 1970

Presidential Address: Metabolism and Mentation 461
R. H. Williams

Action of Globulin and Lymphocytes from Peripheral Blood of Patients with Graves' Disease on Isolated Bovine Thyroid Cells 480
M. W. Edmonds, V. V. Row, and R. Volpé

Impulsive and Basal ACTH Secretion Phases in Normal Subjects, in Obese Subjects with Signs of Adrenocortical Hyperfunction and in Hyperthyroid Patients 491
F. Ceresa, A. Angeli, G. Boccuzzi, and L. Perotti

Effect of Dexamethasone on Plasma Growth Hormone Levels in Acromegaly 502
K. Nakagawa, Y. Horiuchi, and K. Mashimo

Measurement of Aldosterone Secretion Rate by Radioimmunoassay 507
F. Bayard, I. Z. Beitins, A. Kowarski, and C. J. Migeon

A Reproducible, Reliable Method for Determination of Progesterone (P) and 20α-Dihydroprogesterone (20αP) in Small Volumes of Plasma or Serum, Suitable for a Range of Concentrations from Follicular Phase to Late Pregnancy Values. Levels Found Throughout a Normal Human Pregnancy 511
B. L. Rubin, M. Maralit, and J. H. Kinard

24–Hour Urinary Luteinizing Hormone (LH) and Follicle Stimulating Hormone (FSH) Excretion in Normal Children 517
A. B. Rifkind, H. E. Kulin, P. L. Rayford, C. M. Cargille, and G. T. Ross

HCG Stimulation Test in Prepubertal Boys with Cryptorchidism, in Bilateral Anorchia and in Male Pseudohermaphroditism 526
M. A. Rivarola, C. Bergadá, and M. Cullen

Treatment of Experimental Hypercalcemia with Oral Phosphate 531
S. W. Spaulding and M. Walser

Studies of the Protein Binding of Testosterone in Plasma in Disorders of Thyroid Function: Effect of Therapy 539
J. Olivo, A. L. Southern, G. G. Gordon, and S. Tochimoto

XUM

Pituitary Response to Insulin-Induced Hypoglycemia in Obese Subjects Before and After Fasting 546
J. P. Bell, R. A. Donald, and E. A. Espiner

Mechanism of Chlorpropamide Antidiuresis in Diabetes Insipidus 552
B. Ettinger and P. H. Forsham

Familial Study of Hirsutism 556
E. Moncada Lorenzo

Thyrotropin in Human Fetal Pituitaries 565
M. Fukuchi, T. Inoue, H. Abe, and Y. Kumahara

Hyponatremia Due to Sulfonylurea Compounds 570
G. A. Hagen and T. F. Frawley

COMMENTS

An Adult Phenotypic Male with a 46,XX Chromosome Complement 576
H. O. Powers, R. L. Neu, H. Smulyan, and L. I. Gardner

A Fluorescent Reaction for Monoamines in an Insulinoma 580
F. C. Iturriza, L. M. Zieher, and J. M. Mainetti

Plasma Renin Activity and Aldosterone Secretory Rate in Man During Chronic ACTH Administration 581
Th. J. Benraad and R. W. C. Kloppenborg

Influence of Testosterone Binding to Serum Proteins on Aromatization by Enzymes of Human Placental Microsomes 584
I. Mowszowicz, D. Kahn, and F. Dray

Comments on a Proposed New Way of Measuring Thyrotropin (TSH) Reserve 587
R. Mornex and F. Berthezene

Acetylation of Cortisol by a Human Astrocytoma 589
B. I. Grosser and S. T. Krowas

A Case of ACTH-Secreting Cancer of the Colon 591
